via PFS codes

Action Required: Update your billing systems, train staff on new CPT codes, and verify payer policies for these 2026 changes to ensure clean claims submission and optimal reimbursement.

RPM Expanded Billing:

New Codes for 10 min and 2-15 Readings

RPM 10 min Intro Code: 99470

CPT code 99470 describes RPM treatment management services for:

- First 10 minutes in a calendar month,
- For staff/physician/other QHCP time,
- Requiring at least one interactive communication with the patient/caregiver

Designed for shorter monitoring needs like post-acute care or medication titration.

Offers more billing flexibility than the previous 20-minute minimum for RPM management

Once time accrual reaches 20 min, patient converted to traditional billing (CCM or RPM time based 20 min code)

RPM Device Code 2-15 measurements - 99445

CPT code 99445 describes RPM device services for:

- 2 to 15 days of readings per 30 day rolling window,
- Must be connected device
- Must be practice dispensed device

Designed for shorter monitoring needs like disease states that don't need daily reading.

Offers expanded support for patients to have devices but do not use more often

Once 16 days are reached - converts to traditional 99454 billing

RTM Billing:

**New Codes for 10 min and 2-15 Readings
CCIQ Patient App SUPPORTED!**

RTM Expansion: 10 min and 2-15 codes

CPT code 98984 and 98985 describes RTM device services for:

- 2 to 15 days of readings per 30 day rolling window
- Connected device
- Subjective reports from validated, supported data collection device

CPT code 98979 describes RTM treatment management services for:

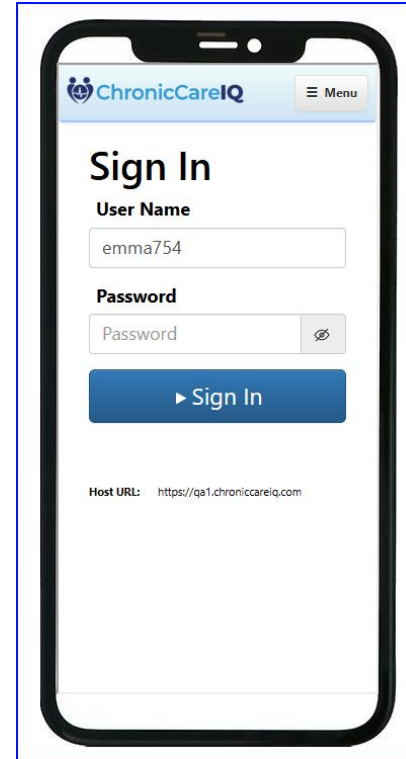

- First 10 minutes in a calendar month,
- For staff/physician/other QHCP time,
- Requiring at least one interactive communication with the patient/caregiver

CCIQ Mobile App: RTM Device Supported

EXCITING RTM NEWS!

In Q4 2025, ChronicCareIQ completed a third party, independent evaluation of our CCIQ Mobile Patient App:

- RTM compliant software platform designed to meet CMS RTM billing and documentation requirements.
- The CCIQ mobile app product is a low risk medical device and digital health application
- Data collected from the CCIQ mobile app aligns with objective non-physiologic patient device-generated guidelines

APCM-BHI Add-On:

New Codes - G0568, G0569, G0570

ACPM-BHI add on Codes

G0568 - <i>Initial APCM BHI</i>	Initial psychiatric collaborative care management, in the first calendar month of behavioral health care manager activities
G0569 - <i>Subsequent APCM BHI</i>	Subsequent psychiatric collaborative care management, in a subsequent month of behavioral health care manager activities
G0570 - <i>APCM BHI Care Management</i>	Care management services for behavioral health conditions, directed by a physician or other qualified healthcare professional, per calendar month

**All Add-Ons are dependent on a base
APCM code dropping in the same month**

Dashboard Time:

Functionality Updates

Dashboard Time - 2026

Introduction of new 10 minute codes for RPM / RTM and dashboard time accrual

CPT 99470

CPT 98979

ChronicCareIQ compliance keeps Dashboard Time at approximately 50% or less of patient's monthly time accrual, this will also be applied to the new 10 minute codes

Age ▾	Patient ID ▾	Status ▾	Timer ▾	Billing Type ▾	Score ▾
59	HRLFK0S		27m 34s 	RPM, CCM, APCM	90
69	5TRQPSW		11m 40s 	RPM, CCM	92
